

Fatal Flower

She's so young and innocent
And where does that leave me
The truth is hard to compromise
And time won't disagree
She's so sweet and beautiful
Some things are plain to see
Who knows in the long run
But now I gotta set her free

Julie's not just any girl
I wish I'd never seen her face
The morning sun really shows her age
She makes an angel

Chorus She's a fatal flower to me
 You must be blind if you can't see
 No matter what the season
 I see her eyes and there's my reason
 Every waking hour
 My fatal flower

She's so soft and vulnerable
Too young to understand
If she falls she'll go to pieces
But I can't hold her in my hands
She's so good and tender
She knows how to make me feel
Won't be hard to remember
As I do she becomes unreal

Julie's not just any girl
I wish I'd never seen her face
The morning sun really shows her age
She makes an angel

Chorus

Ticket To Nowhere

I was standing on my head
Waiting for a train from the other side
I was looking up from down
And all things seemed alright
The trees that passed me by
Said goodbye to my daydream
All the people looked at me in a strange way it seemed

I was sitting up straight
Now it was too late to get off again
The rain against the window
Couldn't hurt me then
I was looking outside
The people ran for a place to hide
There was only one track so there was no way back

Chorus The way she almost used to smile
 Made me stop for a while
 Now I'm traveling on again
 Don't know just until when
 Gonna take it to the end
 A ticket to nowhere

I was lying on the floor
Asking for no more than some peace of mind
Slept the memory off
Another you to find
The train would keep on riding
Keep me from the hiding of everyday
I was waiting for another station on my way

Chorus

*The train would keep on riding
Keep me from the hiding
But I don't want to stay
So I'm waiting every day
For just another station on my way*

Chorus

All In Vain

They've been shattered
All the dreams and hopes I ever had
In the course of my lifetime
Told me to cool it down
But I don't know that feeling anyhow
So why would I bother

Chorus They've been waiting so long
 All my nights and all my days
 Trying hard to change my ways
 They've been waiting so long
 All my nights and all my days
 Trying hard to change my ways
 It was all in vain

Trouble times have come
But I could always take it further
The road was long enough
Sometimes I wonder why
I left so many bridges burning
Too late to cross again

Chorus

Maybe I was wrong
But I know they were not right either
Nobody knows the truth
So much to talk about
So many words unspoken
Out in the open

Chorus

All in vain

Out On Me

Tonight's the night to make things alright
Tonight I'll dry the tears from your eyes
Tonight I want you to be free
Take it all out on me

Tonight all dreams are gonna come true
Tonight I'm really gonna love you
Tonight I want to make you see
Take it all out on me

Chorus 'cause it took a long time to find you
 May I remind you
 That I won't let you go
 'cause I need you so

Tonight we're gonna let our breaks loose
Tonight I wanna drown in your juice
Tonight there won't be time to sleep
Take it all out on me

Chorus

Tonight I really want to hold you
Tonight I know I should have told you
That I won't always be here
For you to take it all out on me

Chorus

Mercenary Eyes

Don't feel emotions
Can't stand any pain
She took my heart and my soul away
But I was here to stay
Through shallow waters
I hear a voice calling my name

Gonna run for cover
Make her lose my way
How can there be love when there is still
A bill to pay
Can't wait any longer
Love is not for sale

Chorus It's gonna take some time for me
 A little pain and sympathy
 I'm gonna kill the beast in me
 Now I see
 Her mercenary eyes
 Told me a pack of lies
 Her mercenary eyes

Don't want to hurt her
But then I don't want to stay
Guess the only way out for me is just
To go away
I'll keep on running
I see no future in this game

Chorus

*I took her heart, took her soul, took it all away
I took her dreams, took her pride, but she was there to stay
I didn't mean to be so mean, what can I say*

Chorus

On Our Own

Somebody said
It's not me
You could be right
But we can disagree
We should have stayed together
We gave it away
(Now you're there)
We could have been forever
We're not today
(Now I'm here)

Somebody said
It was you
You can blame me
I can blame you too
Far beyond the heartache
We danced it away
(Now you're there)
My feet have got no rhythm
That's what they say
(Now I'm here)

Chorus (All alone)
All alone we're all alone
(On Our Own)
On our own we're on our own
(All alone)
All alone we're on our own
(On our own)

Somebody said
It was me
Take a look at me now
It's clear to see
How could I let you walk away
Without a trace
(Now you're there)
Nothing left to remind me
I've got to face
I'm on my own

Chorus

Just One Line

She looked like a fairy
Without a tale
What's left of the mystery
Is a veil
I look at the pictures
Now they feel rather cold
I guess I'm growing old

She looked like a lady
In that thin pink dress
After all this time
She's like all the rest
I was like a baby
In her arms I could have cried
Of happiness that turned into a mess

Chorus But in her eyes I saw the music
 Of a song I never knew
 Will the words be written
 The chorus of me and you
 Or just one line
 Just one line

She looked like a beauty
And that was not unreal
I'm still looking for
The way she made me feel
I have not forgotten
For a while we had it made
But then all memories start to fade

Chorus

Seven Years Later

Thinking back to what I had
Never knew a man
Could go so mad
So many heartaches
Some ghost trails to chase
Everywhere I see your face
Never wanted it to end that way

All came back some time ago
I met this girl
She resembled you so
All of her movements
Some things you used to say
Took me back to yesterday
Never wanted it to end that way

Chorus Did you know that I really loved you
Even though I moved on without you
It's still hard to say
But I can say those words today
Seven years later
Seven years later

Fell in love again with you
Should have known
I would hurt her too
And soon I did
Before she even had a chance
Now I don't know what to say
Never wanted it to end that way

Chorus

*Thinking back to what I had
Never knew a man could go so mad
Everywhere I see your face
Never wanted it to end this way*

Chorus

Two Lives

Seen beauty never once so pure
I've loved before but never felt so sure
So small yet you shook my world
Now my entire life revolves around my girl

Been waiting so long for you to come my way
Thought I'd never see the day
You look through me with your sea blue eyes
So familiar I recognize the ties

Chorus Wanna take you by the hand
 And make you understand
 Wanna take you by the hand
 And make you understand
 Wish I had two lives

Much more than a dream come true
Could never dream someone as beautiful as you
You're around nothing brings me down
You make me laugh and cry, the innocence I found

 Wanna take you by the hand
 And make you understand
 Wanna take you by the hand
 And make you understand
 Wish I had two lives
 So much to give, a lot to live

 Wanna take you by the hand
 And make you understand
 Wish I had two lives
 Wanna take you by the hand
 And make you understand
 Wish I had two lives

Leave The Light On

Don't know where she came from, what she did and where she went
There was no beginning, had to be a happy end
Leave the light on
Leave the light on

Just a passing stranger, like some lost and lonely friend
You have seen the movie, don't remember how it went
Leave the light on
Leave the light on

Chorus Was it the way that she walked
 The way that she talked
 The way that she almost blew my mind
 Was it something she did
 Something I said
 Something I just can't leave behind

She took me to the places I had never been before
Don't recall the faces, just keep coming back for more
Leave the light on (2x)

I want to stay forever, can't let this fade away
Maybe it never happened, was it just another day
Leave the light on (2x)

Chorus

Paradise *(Reprise)*

He imagined all the people
Living life in peace and sharing all the world
I was a dreamer too but now I'm old and wise
Still we are telling the same old lies

Look around you, what do you see
A little happiness, a lot of misery
Are we still deaf and blind, why don't we realize
We are far from paradise

They say that in your dreams wishes come true
But in reality I guess they never do
How can we have fun while a new horizon dies
We are far from paradise

Chorus The world will never be one for you and me
 Because our eyes are just too blind to see
 As long as there's hunger and greed we won't be free
 The world will never be one for you and me

*You can work it out, you're still young
Because the world now knows what's going on
Can't give up on a dream if everybody tries
Still we are far from paradise*

Chorus

Tell Me When

*Whenever I see you again
I won't know what to do
'cause I still carry this picture of you
We used to walk hand in hand
We used to roll in the sand
I'm still not over you*

*Sometimes I hear stories
About the way you live today
I used to know everything about you
I guess we are strangers again
Maybe it's better in the end
I'm still not over you*

*The friends we shared and the places
Still remind me of you
I wonder if it happens to you too
Do you know how much they cared
Do you remember the bed we shared
I'm still not over you*

Strange how people seem to change
They play the game so well
You never can tell
Seems like yesterday's a dream
Will I ever sleep again
Can you tell me when

How can I fall in love
While you're still there and then
Guess we are strangers again
Maybe it's better in the end
